## ➤ **Secondaries**

LAMPIRE has been developing and manufacturing a diverse line of high-quality secondary antibodies for more than 40 years. Manufactured in-house, LAMPIRE experienced technicians can purify your product to meet custom specifications, at a competitive price. LAMPIRE secondaries are high in purity and specificity, whether you need small research sizes or bulk production.

Purified products and reagents are provided at 10 mg/ml in phosphate buffered saline (PBS) with sodium azide, unless otherwise specified. Lyophilization and other custom formulations are available upon request. Products are shipped refrigerated in liquid form, but may be shipped frozen. Additional charges for dry ice and custom formulations may apply. See our product listing or contact Customer Service for more information.

## ➤ **Mouse IgG**

Our Mouse IgG is purified by our trained technicians in our Pennsylvania based state-of-the-art Bioprocessing facility. Once the material is purified, it goes through extensive quality control testing to ensure you receive the highest quality product at an affordable price. Our batches are available in both research and bulk volumes to accommodate the requirements of all of our clients. LAMPIRE products ship worldwide daily

## ➤ **BSA**

LAMPIRE is rated as one of the top leading providers of Bovine Serum Albumin, BSA, driving the marketplace. LAMPIRE offers a full complement of catalog BSA, available both in liquid and lyophilized, as well as a convenient blocking agent BSA+. With superior solubility and filterability, low endotoxin, enzyme and protease activity, LAMPIRE BSA is easy-to-use and ensures assay integrity, component stability and cell culture suitability. The closed loop manufacturing process minimizes contamination and maximizes reproducibility. LAMPIRE products can be shipped to the EU and around the world. LAMPIRE offers standard, reagent, custom, US and New Zealand sourced BSA. See our product listing or contact Customer Service for more information.
